## **PLAMAN Global Announces Updated Mineral Resource Estimate of 33 million tonnes**

PLAMAN Global is pleased to announce the completion of an updated mineral resource estimate from RSC Consulting Limited, which has confirmed a mineral resource of 33 million tonnes of diatomaceous earth (in accordance with the JORC Code) at the location of PLAMAN Global's project at Foulden Hills, Otago, New Zealand. This represents an increase from the previous mineral resource of 26 million tonnes of diatomaceous earth (in accordance with the JORC Code).

*PLAMAN Global is a global animal nutrition and health company. PLAMAN Global is a pure-play animal feed additive business that is led by a world class management team with extensive experience and proven track records to execute on the company's business plan.*

*Black Pearl® is the brand name for PLAMAN Global's black diatomaceous earth product for animal nutrition applications. Black Pearl® is a high value natural feed ingredient that contributes to animal nutrition and feed quality. We take pride in the significant contribution we can make in the animal nutrition industry.*

*PLAMAN Global owns the world's only known large scale black diatomaceous earth deposit, located in New Zealand, and has a mineral reserve of 31 million tonnes (in accordance with the JORC Code and NI43-101). Black diatomaceous earth will be crushed, granulated and dried at our processing facility to form granules that will be marketed under the brand name Black Pearl®. Based on the anticipated production volumes, PLAMAN Global has an operational life of at least 27 years.*

*PLAMAN Global is the only supplier of Black Pearl® and plans to make it available to all major markets across the globe, including New Zealand.*
